

Dewar SLC_N_197

- Dewar de transporte autopresurizable
- Volumen: 60 litros
- Dimensiones:
 - Diámetro: 461 mm
 - Altura: 1150 mm
- Fabricación:
 - Fabricante: Wessington
 - Modelo: PV60
- Fecha entrada: 01-12-2025
- Nº inventario: -

Especificaciones técnicas:

SPECIFICATION	PV 30	PV 60	PV 120
Product Code	9912-5030	9912-5060	9912-5120
Capacity (litres)	30	60	120
Diameter (mm)	410	461	538
Base (mm)	430	490	550
Height (mm)*	955	1150	1416
Weight Empty (kg)	42	60	112
Weight Full (kg)	66	102	187
Maximum Allowable Working Pressure (bar G)	4.0	4.0	4.0
Static Evaporation Rate (% per day)**	3.3	2.0	1.2

VALVES/PIPEWORK

PV 30 - PV 500

The image shows a schematic diagram on the left and a photograph of the pressure vessel on the right. The schematic labels various components: V1, V2, V3, V4, V5, PR, PG, RV, BD, CG, and VAP. The photograph shows the same components in a physical view, with labels V1, V2, V3, V4, V5, PR, PG, RV, BD, CG, and VAP pointing to their respective locations on the vessel.

STANDARD ARRANGEMENT	
V1	Liquid fill/decant valve
V2	Liquid fill/decant valve
V3	Tri cock/gas vent/valve
V4	Auto pressure raising valve
V5	Manual pressure raising valve (optional)
PR	Pressure regulator
PG	Pressure gauge
RV	Relief valve
BD	Burst disc
CG	Contents gauge
VAP	Pressure build vaporiser
